

Biolog for Sterility Assurance

Test your CSP samples with Biolog, giving you peace of mind that all USP guidelines are followed.

USP <797> Bacterial Enumeration and Identification

Our techniques ensure that every colony-forming unit is accurately enumerated and identified.

USP <797> Fungal Enumeration and Identification

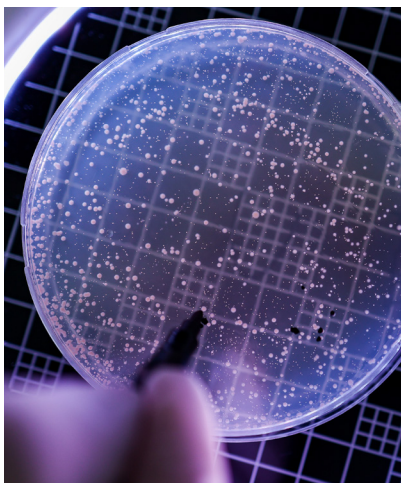

We give you a comprehensive report detailing every fungal colony-forming unit's enumeration and identification.

Gloved Fingertip Bacterial Sampling

Get actionable insights from precise enumeration and identification of bacterial colony-forming units.

Media Fill Test

Our detailed report highlights positive/negative results, providing vital information about visible turbidity.

Biolog Lab Services offers:

- Multiomic ID with:
 - ID by Genotype
 - ID by Proteotype
 - ID by Phenotype
- Enumeration:
 - Total Plate Count
- Total aerobic or anaerobic count
- Total count of spore-forming bacteria
- Total yeast count
- Bioburden testing
- Biological indicator testing
- Gram staining
- Strain Isolation
- Custom microbiology testing
